

A top-down view of a dining table with a light grey marble pattern. The table is set with several dishes: a large rectangular black tray in the center containing a row of seven nigiri sushi pieces with salmon and a drizzle of sauce, garnished with a green wasabi swirl and pickled ginger; a white rectangular plate in the top right with a meat and vegetable stir-fry; two halves of a fresh avocado in the top left; a black tray in the bottom left with a salmon sashimi platter; and a black tray in the bottom right with more nigiri sushi. A pair of wooden chopsticks is visible in the top right corner.

TEA

MILK OOLONG TEA

388 TL

It is obtained by wrapping special oolong teas grown in Taiwan in the form of semi-balls. It normally has the characteristics of Oolong teas with a sophisticated taste. In addition, it has a taste reminiscent of natural milk cream. This is because Milk Oolong tea is exposed to milk and water vapor after drying.

JASMIN GREEN TEA

388 TL

It combines Chinese origin green tea leaves and jasmine flower in a very special form. In this tea, where only the carefully collected bud and the top two fresh green tea leaves are used, the leaves are turned into pearls by wrapping the leaves together with the jasmine flower, one by one, in a long-lasting process. In this way, the jasmine flower preserves its special aroma and fragrance for a long time.
