**698 TL****MAIN DISHES**

# TEA

## MILK OOLONG TEA

168 TL

It is obtained by wrapping special oolong teas grown in Taiwan in the form of semi-balls. It normally has the characteristics of Oolong teas with a sophisticated taste. In addition, it has a taste reminiscent of natural milk cream. This is because Milk Oolong tea is exposed to milk and water vapor after drying.

## JASMIN GREEN TEA

168 TL

It combines Chinese origin green tea leaves and jasmine flower in a very special form. In this tea, where only the carefully collected bud and the top two fresh green tea leaves are used, the leaves are turned into pearls by wrapping the leaves together with the jasmine flower, one by one, in a long-lasting process. In this way, the jasmine flower preserves its special aroma and fragrance for a long time.
